

Fulbright programme

The Fulbright programme offered me an opportunity to work with the renowned scholar Professor Douglas Clement, Kennedy Endowed Chair in Early Childhood Learning and Distinguished University Professor at the University of Denver. On my arrival at University of Denver was warmly welcome, allocated a working station and had dinner at Professor Douglas house

Being a Fulbright Alumni offered me an opportunity to network and as emerging academia to learn how other universities in different context operate. Unfortunately the outbreak of COVID-19 disrupted my programme but I am grateful for opportunity.
